## General recommendations

<i>Why?</i>	<i>What?</i>
Insufficient specific knowledge relative to Marine N2000 features and to pressures on these features	Further document case studies on conservation objectives Expert workshops on Annex I habitats units/subdivision Scientific workshops on sensitivity, cumulative effects, indicators
Lack of preparedness to propose environmentally relevant CFP measures	Incentivise joint work of fisheries and nature authorities
Fragmentation between implementation of ND, WD, MSFD, and MSPD	MSPD as an opportunity to address conservation issues in an integrated manner
